**Voice and Data communications cabling.** Smart City is the **exclusive installer** of Voice and Data communications cabling. Smart City provides cabling to booths, within booths (under carpet and flooring) and from booth-to-booth. Fiber Optic, twisted pair (Category 3, 5 and 6), coaxial and all other data and telecommunication cable fall under Smart City's area of expertise.

**IMPORTANT!!** Prior to installation of service, a complete floor plan is required. Please utilize this grid should you not have your own floor plan to send us. You may use a different floor plan for each service group (Telephone, Internet, etc.) or combine all services on one floor plan. For a floor plan to be considered complete it **must** include all the information listed below (Main Distribution Location "MDL", designated location of items within the booth, surrounding booths, scale-length and width).

Main Distribution Location (MDL) – The originating line(s) for service, whether from overhead, a floor pocket or a column, will be delivered to a "MDL" before being distributed within your booth. Example: Storage area, back of booth, etc. (unless specified, the default for the "MDL" will be the back of the booth or at Smart City's discretion, the most convenient location). All distribution of services to their final destination within the booth will originate from the "MDL". A per line move fee will apply to relocate services within your booth after they have been engineered and / or installed.

I = Location of Telephones, Fax lines or other telecommunications equipment "T".

I / H / PC / C = Location of primary Internet Service "I", Hubs "H", Patch Cables "PC" and / or Computers "C". For Smart City to perform your floor work, you will need to indicate the location of each item you want cabled. Make sure to order your floor work, hubs, and patch cables early and in advance of the show moving in.

Orientation = The Booth or Aisle #'s surrounding your	booth. A minimum of one surrounding Booth or Aisle # is required (two o
more would be more helpful) for Smart City to accurately	install your services.

## Floor Work / Labor - Communications Cable

Center:	San	Diego	CC	(025) -	CA	Company Name:	
Show:						Booth / Room #:	
						Customer / Ref #:	2013 - 025 -

Smart City has the exclusive contract to install all voice and data communications cabling. This includes all cabling to booths, within booths (under carpet and flooring) and from booth-to-booth. Fiber optic, twisted pair (Category 3, 5 and 6), coaxial and all other data and telephone cables fall under Smart City's area of responsibility.

- ❖ Labor cost \$100.00 an hour per technician, with a one hour minimum.
- ❖ Floor work Estimated at 4 cables per hour (this is a conservative estimate assuming normal circumstances with timely request for service and a complete floor plan received at least 5 days before show move in. Charges could be greater than our estimate for a variety of reasons such as floor work was ordered late, carpet had already been laid, obstructions / physical structures and other miscellaneous issues that can make cabling more labor intensive and time consuming).
- ❖ Smart City Cat 5 Cable \$50 each (50 ft. cable)

### Please select the floor work option that you will require for your booth:

Yes, we will need to order floor work from Smart City for our booth.
Estimated number of labor hours. Please add this to our order.
<b>No,</b> we will not require floor work for our booth. We will not be laying our cables across aisles, across traffic flow areas, under carpet or under flooring.

## Please select the cabling option that you will require for your booth:

Smart City Provided Cable. We prefer Smart City to provide the cable for our booth.

Exhibitor Provided Cable.	We will provide ou	ır own cable for oı	ur booth and	understand t	he following:

- - We will not be placing cable across aisles, across traffic flow areas, under carpet or under flooring.
    Smart City can only accept cable and cannot accept hubs, routers, switches or other equipment.
  - Smart City cannot guarantee service on Customer/Exhibitor provided cable(s) and/or equipment. Connectivity can be guaranteed only to the point where Smart City's services originate in the booth.
  - Any request for trouble diagnosis or problem resolution found not to be the fault of Smart City may be billed to the Exhibitor at the prevailing rate (for example, faulty equipment or damaged cable).
  - Cable(s) must be shipped two weeks prior to the show opening to:

#### <u>Overview</u>

Smart City is the exclusive provider for wired and wireless services for the Facility and has in operation a wireless 802.11 a / g / n system. The wireless service offers Internet access at speeds up to 256K servicing Customers as well as attendees. The actual maximum bandwidth available depends on how many users are accessing the network simultaneously at any given time. Routers, Streaming Applications, VoIP, DHCP, NAT or Proxy Servers are not allowed with this connection. Smart City can engineer custom dedicated network(s) to accommodate such special requests. Please call for quote.

Wireless is an entry level service ideal for web surfing and checking web based email. Smart City's Wireless Network can be accessed throughout the Facility by using a Wi-Fi® compatible 802.11 a / g / n network card or one of our rental bridge units (limited quantity of bridge units, call for availability).

Wireless service is inherently vulnerable to interference from other devices that transmit similar radio frequency signals or that operate within the same frequency spectrum. Smart City cannot guarantee that interference will not occur. Smart City does **NOT** recommend wireless service for mission critical services such as product presentation or demonstrations. For demonstrations or to present products and other mission critical activity, via the Internet, Smart City highly recommends Customer(s) purchase hardwired services such as Shared Ethernet, Shared EtherNAT or T-1 service.

If you are unsure which of our products will best suit your needs please call our Customer Service Department at (888) 446-6911 and one of our Customer Service Representatives will be happy to assist you.

### **Restrictions and Special Requests**

Due to the extensive coverage Smart City provides for the Facility, **NO** Customer provided access points are authorized for use within the Facility without Smart City prior approval (wireless access points without adjustable power outputs can not be authorized under any circumstances). Customer(s) who attempt to set up their own wireless system can interfere with the Smart City Wireless Network. Smart City requires all Customers showcasing their wireless products to contact Smart City 21 days prior to the show move-in so that we may engineer a cohesive network operating without interference (all approvals will incur a site survey fee). Per our Terms and Conditions listed on Smart City's Customer Contract, misuse of any wireless service may result in service interruption to yourself or other Customers and can lead to disconnection of the Customer's equipment. **No service refunds will be given.** 

#### ALL WIRELESS ACCESS POINTS NOT AUTHORIZED BY SMART CITY ARE PROHIBITED.

I hereby attest that I understand the limitations and vulnerabilities of the wireless service provided by Smart City. I also understand that if I use this service for any reason including, but not limited to, demonstrating, showcasing or presenting my product(s), Smart City will not be responsible for possible interference that I may experience. Refunds will not be given for service issues found not to be the fault of Smart City. Upon receipt of this form, Smart City Wireless Services and / or Customer(s) authorized wireless AP devices (with Smart City's approval) will be activated / available for your use.
