SPECIALTY CONFERENCES

EXHIBIT AT HYPERTENSION JOINT SCIENTIFIC SESSIONS

- Get one-on-one with more clinicians and research scientists in this intimate meeting environment.
- Meet important decision-makers: 85% of attendees are clinicians and/or research scientists.
- 80% of Specialty Conference exhibitors say they will exhibit again next year.

CONFERENCE SUMMARY

AHA's Joint Hypertension Scientific Sessions 2018 is a collaborative effort between AHA's Council on Hypertension and Council on the Kidney in Cardiovascular Disease and is a three- and-a-half-day scientific program with more than 500 presentations focused on recent advances in hypertension research. This conference will include oral and poster presentations selected from abstracts submitted by clinical and basic researchers, followed by discussions led by leading authorities.

With experts in the fields of hypertension and its relationship to cardiac and kidney disease, stroke, obesity, and genetics, attendees will have the opportunity to connect with cross-disciplinary researchers and clinicians from around the world.

This meeting includes several interactive sessions specifically designed to benefit trainees and early career investigators, including a trainee poster session to highlight innovative research and how-to sessions that provide in-depth information about a range of topics related to the study of hypertension.

TARGET AUDIENCE

The conference is designed to benefit research scientists, clinicians, and other healthcare professionals in the fields of hypertension research, cardiology, nephrology, endocrinology and related disciplines.
