

# energizing engagement.

Whether live, digital, or hybrid, event success ultimately rides on keeping attendees engaged. And the rules of engagement are different online—especially when it comes to networking.

We're excited to share some of our networking features in development.

# networking

We're developing robust networking functionality into OnlineEvent Pro™. Soon-to-be-released features include a main networking page that allows scheduling with peers, exhibitors, and speakers. New meeting formats include; one-on-one direct chat and group interaction via video.

# user profile

User profiles are pre-configured using registration data. Attendees can further customize these by uploading profile photos or modifying networking settings.

With user profiles, attendees gain the ability to populate a favorites list. Sessions, posters, exhibitors, and speakers can all be added to this list.

# meeting schedule

By accessing their in-platform schedule, attendees can view a list of their preferred sessions, live showcases, or attendee meetings. By navigating to this list, they can view details, join meetings happening now, or watch an on-demand session.

OnlineEvent Pro™ provides users several ways to engage within the platform, ranging from sessions and attendee meetings to live showcases and session breakouts. Our roadmap for 2021 will enrich the user experience by adding round tables and watch parties to the platform functionality list.

# 1:1 direct chat

Attendees will be able to initiate 1:1 conversations by searching an attendee list. Direct chats can be accessed and viewed from any page within the platform. New chats will appear as a banner notification and can be opened by clicking the chat icon in the top navigation.

# 1:1 and 1:many video meetings

1:1 video meeting replicate a FaceTime experience while 1:Many video meetings can include up to 16 video participants and 50 invited guests. During these meetings attendees will have the following functionality available to them:

- Chat with Attendees
- Share Screen
- Share Video
- View Attendee Roster

The image displays two screenshots of the Freeman video meeting interface. The left screenshot shows a 1:1 video meeting in progress. The main window features a large video feed of a woman with curly hair, with a smaller inset video feed of another woman in the bottom right corner. The top navigation bar includes the text "Your Event LIVE!" and "Las Vegas • September 7-9", along with links for "About", "Summit Program", "Media", "Sponsor Inquiries", and "Freeman". The bottom control bar contains icons for "Mute", "Stop Video", "Share Screen", "Settings", and a red "Leave" button. The right screenshot shows a 1:many video meeting. The main window displays a grid of 12 participant video feeds. The top navigation bar is identical to the 1:1 view. On the right side, there is a "Chat" panel and an "Attendees" panel. The "Attendees" panel lists participants, with "Brian Banks" selected, showing a dropdown menu with options: "Mute User", "Disable User's Video", "Remove User", "Promote to Speaker", and "Promote to Moderator". The bottom control bar is also identical to the 1:1 view.
