

Health Innovation Pavilion:

A home for all things health technology at Scientific Sessions

The Health Innovation Pavilion is a dedicated physical space located on the Science & Technology Hall floor. This area will provide a highly visible home for the Health Tech & Innovation programming and all things related to this topic. The Health Innovation Pavilion will compliment the overall program while providing a cutting-edge unique educational experience and home for this growing area of Scientific Sessions in addition to providing new sponsorship and attendee engagement opportunities.

This area will also host the AHA Health Tech Competition.

Components of the pavilion are:

- Theater or stage area for individual speakers, panels, and the Health Tech Competition, including full audio/video to engage the audience and extend the reach of the presentations.
- Health Tech & Innovation Showcase area where companies can showcase or demo their products.
- Health Tech Simulation Demonstration
- Networking opportunities help build recognition of your product or service.
